ANNOUNCEMENT!

We wish to announce to the people of Statesboro and Bulloch County that we are ready for your patronage with a complete line of furniture, consisting of Bedroom Suits, Hat Racks, Chiffoniers, Sideboards, Buffets, Dining Room Furniture, Kitchen Cabinets, Book Cases, Window Shades, Carpets, Art Squares, Rugs, Matings, Linoleum, Stoves, Ranges, Trunks, Valises, Odd Dressers, Wash Stands, Iron Beds, and in fact everything for the home.

We handle exclusively several of the best lines in the country and have succeeded in buying these goods at the very lowest figure possible. Buying goods at right prices enables us to sell you right, and we are sure we can save you money.

We especially invite you to call and inspect our stock, whether or not you are in the market just at this time. We can arrange terms to suit the customer and guarantee satisfaction or your money back.

Raines Hardware Company

Howard and Tribble

Both Are Nominees.

Athens, Ga., September 17.—There are now two democratic nominees for the one office of congressmen from the Eighth district. Today there were held in this city two congressional conventions at which all the required forms were observed and each of them ended in a nomination. One convention backs Samuel J. Tribble and he has accepted the nomination. The other convention backs William M. Howard and he has accepted the nomination.

Hundreds of men from every part of the district were present when the time for calling the convention to order approached. The throngs converged toward the city hall, and the use of the police was necessary to get the big crowd into the hall without disorder. Immediately after Hon. John E. Gordon, chairman of the district executive committee, rapped for order the Tribble forces assumed the reins and dominated the convention while a "steam roller" programme was put through. John S. McKenzie, of Madison county, nominated J. N. D. Thompson for temporary chairman, and he was elected by viva voce vote, the attempts of the Howard men to protest being drowned in the outburst of cheers, and Mr. Gordon's attempt to gain a hearing was futile.

Chairman Thompson called the meeting to order and named a committee on credentials, this committee reported Tribble entitled to the delegates from Elbert, and nominations were called for.

Mr. McKenzie nominated Mr. Tribble and the roll of counties was called and Mr. Tribble declared the regular nominee by receiving sixteen votes. Two Howard counties voted against him, the others remaining silent.

Mr. Tribble was notified and entered the hall amid wild enthusiasm, his supporters seeming to predominate, and spoke for several minutes. He accepted the nomination and stated his motto to be "special privileges to none and full

justice to the masses." At the close of his speech the Tribble convention adjourned and left the hall.

Upon the adjournment of the Tribble convention Chairman Gordon called the second convention to order and the program was repeated. The Howard delegates from Elbert were accredited and Hon. T. Mell was chosen chairman.

Mr. Howard was nominated, amid applause from his supporters, by R. L. McCommons and the delegates from Oglethorpe and Elbert paid him exceptional tributes in seconding the nomination. The votes were cast and Mr. Howard received sixteen votes, not a Tribble county casting a vote, and was notified of his nomination.

He entered the hall and made a short speech, accepting the nomination and thanking his adherents for their support.

Each convention appointed district executive committees for the ensuing term, and each faction claims that their convention was the only legal one, and that their nominee is the party candidate.

Much excitement exists, and it is conceded that the situation means a bitter fight right up to the November election.

In the recent primary Tribble received a popular majority of more than 600 votes and on the face of the returns had a majority of four votes in the convention, under the county unit system.

The district executive committee, because of alleged irregularities in Elbert county, threw out nineteen votes, thus changing a Tribble majority of four votes in Elbert county to a majority of eight for Howard and giving the latter the convention vote, four, of that county.

The Elbert county executive committee disregarded the district committee's action and named Tribble delegates to the convention. Howard delegates were also named by the district committee.

Statesboro Boy Held

For Theft of Clothing

Atlanta, Sept. 16.—Confessing that he stole a suit case containing clothing and other valuables from a Georgia railroad passenger train, Fate Clary, a young man about sixteen years of age, whose home is in Statesboro, was bound over to the State courts by Recorder Broyles Friday morning on the charge of larceny. Bond was fixed at \$500.

The stolen suit case belongs to F. T. Mason, of the Venable Construction Company.

Clary was taken from the Tower and brought before the bar in police court by Detective Eugene Coker, the young man having already been bound over a few days ago on the charge of stealing some clothing from a boarding house at 70 East Mitchell-st. Detective asked Judge Broyles to assess a strong bond in the case of Friday morning, stating that he thought he would have still another case against the young man.

The stolen goods have been recovered.

Clary's father has arrived in Atlanta to aid his son in his trouble.

Dog's Paw in Can of Meat.

New Orleans, September 17.—Philad Vresinski, a merchant at Jackson, La., in a letter to E. L. McGhee, chemist in charge of the Federal government's pure food laboratory here, declares that he ordered a case of canned tongue from a New Orleans wholesaler several days ago. He sold some of the tongue and opened a can himself. Here is what Vresinski found:

Front paw of dog, with claws intact. Half a handful of dog hair, colored yellow. Sixteen broom straws.

McGhee has dispatched a government inspector to Jackson to seize the consignment and obtain an affidavit from the merchant. The name of the Chicago packing house that shipped the stuff the chemist would not reveal. He has made formal report to Washington.

Records of Cook

Sought by Bradley.

Copenhagen, September 15.—The Danish government steamer Hans Egede arrived here today with the news that John R. Bradley, the financial backer of Doctor Frederick A. Cook's North Pole expedition, was on his way to Etah to secure the much-talked-of records and instruments which Cook has said that he left at that Eskimo settlement northeast of Greenland. The captain of the steamer thinks that Cook is with Bradley, but gives no particular reason for this belief.

The Hans Egede, which is the vessel upon which the explorer traveled to civilization, fell in with a yacht at Godhaven, a Danish settlement on the south coast of Disco Island, Greenland, and, in the course of exchanges between the masters, learned that Bradley was aboard the other craft.

The Polar hunt promoter admitted his identity, and explained that he was bound for Etah to recover whatever had been left there by Dr. Cook. He refused, however, to either deny or confirm the report that he was accompanied by the explorer. The government vessel also brings the information that two missionaries who are working among the Eskimos, who accompanied Cook on his expedition, say that these Eskimos insist that the doctor reached the North Pole, as he claims, prior to its discovery by Commander Peary.

Hands Blown Off by Dynamite.

Cordele, Ga., Sept. 16.—As the result of the explosion of a stick of dynamite in his hands, Ben Butler, deputy sheriff of Dooley county, lies dying at his home in Vienna. Both hands were blown off and his body badly mangled. His face and eyes are also badly hurt.

It is stated that Butler with a party of friends had gone to Flint river fishing, fourteen miles from Cordele, at a point where Pemehatchie creek empties into the river, and the accident occurred there. Butler is 25 years of age and unmarried.

The fact that a California livery horse slept for two weeks caused quite a lot newspaper talk out west a short time ago. The fact that

he awoke at the end of that time would seem to be the peculiar part of the incident to people out this way.

PLANNED TO KILL WIFE WHITE MAN HIRED NEGRO TO DO MURDER FOR HIM.

Savannah, September 24.—Frustrated by the police at the climax of what seems a well planned scheme for the assassination of his wife tonight at her home by a negro, B. F. Brown, who lives at Green street and the White Bluff road, where he conducts a store, and who is also an employee of the Central of Georgia railway shops, was placed under arrest by Chief Detective Murphy and Detective Umbach at his home today.

Brown's arrest came a few minutes after the detectives had witnessed the consummation of the preliminary arrangements for the assassination.

Joseph I. Montgomery, who is a negro preacher, and it is alleged, had a hand in the planning of the assassination of the woman, is under arrest and is being held at the barracks with Brown.

The plan for the murder of Brown's wife by Sam Glover, colored, was perfectly arranged and would probably have been carried out by Brown had not he picked the wrong negro to do the work, resulting in the scheme coming under the surveillance of the police several days ago.

The existence of the plot was reported to the police about a week ago and a preliminary investigation was made.

The facts that have been revealed to the detectives concerning the plot are that Brown had taken Glover into his confidence several days ago, acting upon the advice of Montgomery, to whom he first made offer and paid money in assisting in his carrying out his plan. Glover told the detectives that the plan arranged between him and the white man was that Mrs. Brown would be murdered at her home tonight by Glover, who would receive upon the completion of the deal the store on the White Bluff road, which belongs to Brown and is conducted by his wife. The murder was to be conducted by a pistol which was to be purchased by Brown today for Glover.

The negro, according to his statement, was to go to the home of Brown tonight, when Mrs. Brown would be alone, and knock at the entrance of the house and ask for whiskey. When Mrs. Brown came to the door he was to fire the shot through the broken pane of glass in the front door into her face. The gate would be left open, it was planned, through which the man was to make his escape to the "hickety byond."

When a part of the alleged plot was revealed to the police by Glover they secured his assistance in

for some time, it is asserted.

The negro, Montgomery, it is alleged, had planned to assassinate the woman for Brown by "trickery" and also assisted in the planning of the plot, it is asserted. He advised Brown to consult Glover, whom he knew would carry out the plan after his own failure. Montgomery has told the police many different tales concerning the affair, and as he is wanted in connection with this case, therefore the police determined to hold him in custody.

That Brown had planned murder well protected seems possible from the details that have been revealed. The plot, it is alleged, provided that when the shot was fired the revolver was to be dropped inside the house, leaving evidence of a suicide. Brown was then to leave for Manassas, Ga., to visit his wife's relatives, it is stated.

The existence of the plot for her murder has been known to Mrs. Brown for some time, she says. To the police she stated that she has been frantic since she first became aware of her husband's intentions several weeks ago. She has been dumb from fear of the man and stated that she had been expecting to have her life taken at any moment. When the police became

HUDSON TO RUN FOR GOVERNOR

QUESTION WHETHER HE WANTS JOB AS GOVERNOR OR CONGRESSMAN.

Atlanta, Sept. 21.—Will Colonel Thomas G. Hudson, the suave, polished, hand-shaking commissioner of agriculture, set sail for congress or the governorship?

Although Hoke Smith has not actually been elected yet, and even after the formality of the October election, it will be more than eight months before he actually begins his term of office, there are already signs of lining up for 1912. Hoke Smith has stated emphatically that he will not run again. It is equally certain that he will practically name the man who will represent his policies in the office.

Colonel Hudson undoubtedly leans toward Smith. While he took no active part in the recent primary, it is well known that his sympathies were with Smith. But Hudson is not the Smith type of politician by any means, and it is doubtful if the big man's mantle would fall upon the American man. The colonel rather likes to run with the boys instead of arousing antagonism by any return business. He is a good, clean, straight man, all right, but he is inclined to

Millinery Novelties

on Wednesday and Thursday,

Oct. 5th and 6th.

The ladies are cordially invited to inspect them.

J. T. WRIGHT & SON, Metter, Ga.

aware of the existing plot and consulted the woman she became relieved and gave her assistance in frustrating the scheme.

The cause of the plot to murder her, she claims, is the result of her husband's infatuation for another woman. This has been evident to her, she states, since a recent visit to her relatives, when she and her husband quarreled.

Brown denies the whole affair, claiming that the plot was trumped against him by Glover, who owes him money. He cannot, however, satisfactorily explain the transactions which the police witnessed this morning or the story told by the wife of her knowledge of the plot to assassinate her.

Brown was married fourteen years ago. He has two children. They have resided in Savannah for some time and have conducted the store at Green street and the White Bluff roads for several months.

We have in stock a line of McCormick and Deering Mowing Machine repairs. See McCoy at marble yard.

We also have had a few McCormick and Deering Mower and Rakes, and Hay Presses. Can supply you with a Gasoline Engine, Vertical cut meal mill, Feed Mills, Pumps, and other machinery.

McCoy & Proctorius, Agents.

conservatism in his political operations.

It is known that he has a strong desire to go to Washington. He seriously contemplated trying to trim the Hon. Dudley M. Hughes at the recent primary, but after long and due reflection he decided that it was inauspicious just now to do so.

As history goes in Georgia, the office of commissioner of agriculture offers exceptional advantages in building up a neat and nifty little machine. The place carries quite a number of appointments all over the state with it. Of course, no commissioner is going to appoint any man oil or fertilizer inspector who is not a friend or who does not carry some political influence with him.

There be those who say Uncle Obe Stevens built up as fine and smooth working a bit of machine out of the job as one would care to see. It is history that Uncle Obe held the job as long as he wanted, then graduated into the railroad commission berth. That is apparently where Uncle Obe fell down, for long comes a red-haired chap from Gwinnett presently and yanks the commissionership of railroads from under the crafty Uncle Obe. Evidently that place does not afford any such opportunities for

Bryan Bolts Nebraska Democratic Ticket.

Omaha, Neb., September 21.—The opposition of William J. Bryan to the candidacy of Mayor James Dahlman, of Omaha for the governor's chair was not a surprise to Nebraska democrats, as it was fore-shadowed in his speech at the democratic platform convention at Grand Island two months ago.

Mr. Bryan had made a fight for the incorporation of a county option plank in the platform, and was defeated by a vote of more than three to one. The convention also declined decisively to adopt a plank against county option and the platform as framed avoided the issue, merely endorsing the eight o'clock saloon closing law of the state.

Mr. Bryan from the platform declared a republican victory probable as a result of the evasion, the republican convention having adopted a county option plank.

Mayor Dahlman, then a candidate for the nomination for governor, said from the platform that if elected governor he would veto any county option measure should one be enacted by the legislature during his term of office. He also asserted his antagonism to the eight o'clock closing law, and said he would aid in the passage and sign any bill repealing it.

Governor Shallenberger, who was defeated for renomination by Mayor Dahlman, announced his termination to rigidly enforce the eight o'clock law through the state, especially in Omaha, where it has been disregarded. This probably resulted in his defeat, the vote in Omaha being heavily against him.

Mr. Bryan had been expected to aid in the campaign of Governor Shallenberger had he been renominated.

Don't talk so much about your ancestors, but try to do so act and do that your grandchildren will be proud of theirs.

machine building as did the farming job. But reverting to Col. Hudson, one hears a deal these days about him for the governorship two years hence. He only smiles when questioned; but it looks like he can be persuaded. If neither side will line up with him—and it is dollars to doughnuts that the Brown wing won't—he may decide to try to separate Dud Hughes from the Third district job.

As things now look there is to be a kilnenny cat time of it next time. Both sides are in fighting humor. One is in the saddle, gleeful, arrogant and sure of things. The other is out, sore at many things, and especially the convention steam roller, and determined to come back with a vengeance if it is possible.

Fresh Bread Daily.
We have made arrangements with a first-class Augusta bakery whereby we receive daily fresh bread. Bread received by the 5 o'clock train every evening.

tional argument for the agitators for
a universal peace, also a weapon in
the hands of some poor nation that
does not believe in that order of
things.

**DARING MAN-BIRD
CROSSES THE ALPS**
George Chavez Wins Honor of
the Greatest Flight.
AVIATOR LOSES RICH PRIZE
Plucky Hero Badly Injured After He Had
Completed the Most Hazardous
Portion of the Route.

Donatonsola, Italy.—The great feat
of crossing the snow-capped Alpine
barrier between Switzerland and Italy
in a heavier-than-air machine was ac-
complished by George Chavez, the
young Peruvian aviator.

The plucky hero of the exploit,
however, lies in a local hospital badly
injured as the result of an accident
that occurred just as he had com-
pleted the most arduous and nerve-
racking portion of a task he had set
out to accomplish—a flight from Mil-
an, Switzerland, across the Alps to Bri-
ganza, Italy, in all a distance of about
75 miles.

Both his legs are broken, his left
thigh is fractured and his body is
badly contused, but the physicians in
attendance are of the opinion that
these hurt will not prove fatal and
that unless looked for complications
Chavez will be about in two months.

The accident occurred as Chavez
was endeavoring to make a landing
here. The Alps had been crossed suc-
cessfully and the aviator was de-
scending with the power of his ma-
chine cut off.

When about 30 feet above the ground
a sudden gust of wind seemed
to catch the monoplane, which turned
over and fell, when the crowds that
had been watching the descent ran up
they found Chavez lying bleeding and
unconscious beneath the twisted wreckage.

Fifty miles away and over country
that has none of the hazards of the
Alps, lay Milan, the goal Chavez was
seeking in an endeavor to win a prize
of \$20,000 offered by the Italian Avia-
tion Society, Chavez had lost the race.

Don't think it's by accident that a
woman hits the object directly behind
her. She merely finishes her aim.

ODD FELLOWS MEET.
Nearly 25,000 Men in Line in the Biggest
Parade Atlanta Has Ever Seen.

To Indianapolis goes the next
annual meeting of the Sovereign Grand
Lodge of the Independent
Order of Odd Fellows. The suc-
cess of the Indiana city in re-
curing the much coveted con-
vention came as quite a surprise
to many of the members of the
Sovereign Grand Lodge, who
believed that either Toronto, Can-
ada, or Buffalo, N. Y., would be
the successful city.

Atlanta.—The Odd Fellows stormed
the city, 25,000 strong; Atlanta gave
them almost undivided attention in
making them have the time of their
lives.

The monster parade, in which fully
25,000 marched, was a brilliant spec-
tacle, and all Atlanta, and especially
a good part of Georgia and neigh-
boring states, were on hand to view
the pageant as it wound itself through
the city streets, the most specta-
cle of its kind the South has ever
seen.

There were close on to 30,000 mem-
bers of the I. O. O. F. in the city
when the grand street parade got
in motion.

The barbeque to the visiting Odd
Fellows at the Cold Spring ground
was one of the distinctive fea-
tures of the convention.

To a great majority of the guests
the barbeque was a novelty, and as
the dishes were served there were
many who did not taste until they
attempted to eat. But that taste cap-
tivated all appetites.

Hundreds of Rebekahs gathered in
the morning to take part in the
meeting at which the Atlanta
lodge and the state Rebekah as-
sembly gave welcome to the visiting
delegates from lodges scattered through-
out the United States from Maine to
California.

John B. Cockrum of Indianapolis,
formerly deputy grand sire of the in-
dependent Order of Odd Fellows, was
chosen grand sire of the organization
and is now at the head of the 2,000,
000 Odd Fellows of the world.

C. J. Keller of San Antonio, Texas,
was at the same time elected deputy
grand sire over Judge Robert C. Dan-
iel of Griffin, and Grand Representa-
tive Hill Montague of Virginia. Mr.
Keller received more votes than both
of his opponents combined.

The office of deputy grand sire was
the only one which was filled at the
session of the sovereign grand lodge
over which there was any contest. It
was filled by the action of the grand
lodge following the precedent of ad-
vancement of many years standing.

CRANK AT WHITE HOUSE.
Venerable Hebrew Says He Was
Robbed of \$40,000.00 and Wife.

Washington.—The first crank of the
season showed up at the white house.
He was Benjamin Snyder, an aged
Hebrew, who said his home was Phila-
delphia. He told a rambling
story to the white house attendants
of having been robbed of \$40,000.00 and
his wife by a man named Homan, who
he called at the white house and he
asked President Taft to get back his
money, but he did not want Mr. Taft
to bother himself about locating his wife.

Snyder was regarded as harmless by
the secret service officers and turned
over to the local police. He is being
held until word is received from the
Philadelphia authorities.

DIAZ PICKS SUCCESSOR.
Former Minister to United States To
Be Next Mexican Ruler.

Washington.—That Enriquez Creel,
former Mexican minister to the United
States, will be the next president
of Mexico, to succeed Porfirio Diaz,
and that the honor will not go to Vice
President Carral, is the story in cir-
culation among diplomats in Wash-
ington.

According to the story, Diaz has let
it be known that Creel is to succeed
him, and the plans are in readiness
for one of the military elections held
in that country whenever it is neces-
sary to put a man in office over the
protests of the enemies of Diaz.

Girl's Corpse in Trunk.
San Francisco.—Miss Mosser,
schmidt, the nurse held in connec-
tion with the death of Eva Swan, fol-
lowing the finding of the girl's body
beneath the cement flooring of the
basement of a vacant house, con-
fessed to the police that she had knowl-
edge of the operation performed by
Dr. James Grant upon Miss Ryan. The
confession states that "Robert Thon-
don, known as Doctor Grant," packed
the girl's body into a trunk, first cut-
ting off the legs at the ankles, and
then turned the trunk.

Mutiny at West Point.
West Point, N. Y.—"Near" mutiny
is rampant among the cadets at the
United States Military Academy.
Two administering the "silence" to
Captain London, an instructor, caused
the trouble, and the cadets have
been undergoing severe measures of
discipline. It appears that Captain
London, stationed here since Septem-

the displeasure of the cadets, and
when he entered the mess hall, he
was greeted with the indignity of the
"silence."

**IMMIGRANTS ARE COMING
TO THE SOUTHLAND**
Few Foreigners Have Located in
the South So Far.

Washington.—The next act in the
drama of the nation's future will be
a flood of immigration into the South
not only from the North and Middle
West, but from countries of Europe,
especially those bordering on the
Baltic and North seas. Inquiry at the
legations of Norway, Sweden and
Denmark elicits the fact that the re-
quirements of these countries are
making special efforts to lead their
immigrating citizens into the country
south of the Ohio and Potomac and
east of the Mississippi. These for-
eign ministers have gotten busy on
the matter and are seeking all infor-
mation regarding special advantages
offered immigrants in the different lo-
calities. At present, especially in the
states along the South Atlantic sea-
board.

The immigration into the South from
Europe has of late years been most
meager. While the foreign settlers
for the ten months ending May, 1910,
were in New Jersey 51,000, and nearly
25,000 in Little Connecticut, there
were only 1,000 in the South, less than
500; North Carolina got a scant
300, and South Carolina but 150.
Maryland got just one over 300,
while Virginia absorbed only 17.
Texas, with one-fifth of the area of
the United States, got 5,000 of them,
the small District of Columbia, a
scant five by ten miles in area, re-
ceived as many immigrants, practi-
cally as the combined states of North
Carolina, South Carolina, Georgia and
Tennessee.

Industrial experts predict that the
movement into the South will begin
about October 1. Large tracts of land
are being figured on in Georgia and
Florida by several prominent com-
panies and houses for the expected im-
migration, and in the Southern states
farther north there are movements of
like character taking place.

Clayton, Kans.—Sixteen persons lost
their lives and thirteen others suffer-
ing from injuries in the wreck two miles
west of this town of westbound Rock
Island passenger train No. 27, which
was running to Denver from Kansas
City. The wreck occurred on the
night of October 1, when the train
crossed a trestle over a deep ravine
under what is normally almost a
dry bed, turning the latter into a
torrent and washing out nearly a
mile of track. The engine and the
first two cars were hurled into the
ravine, and the rest of the train
rumbled at full speed, plunging into
the water and the engine and the first
two cars were hurled into the ravine,
and the rest of the train rumbled at
full speed, plunging into the water and
the engine and the first two cars were
hurled into the ravine, and the rest of
the train rumbled at full speed, plun-
ging into the water and the engine and
the first two cars were hurled into the
ravine, and the rest of the train rum-
bled at full speed, plunging into the
water and the engine and the first two
cars were hurled into the ravine, and
the rest of the train rumbled at full
speed, plunging into the water and the
engine and the first two cars were
hurled into the ravine, and the rest of
the train rumbled at full speed, plun-
ging into the water and the engine and
the first two cars were hurled into the
ravine, and the rest of the train rum-
bled at full speed, plunging into the
water and the engine and the first two
cars were hurled into the ravine, and
the rest of the train rumbled at full
speed, plunging into the water and the
engine and the first two cars were
hurled into the ravine, and the rest of
the train rumbled at full speed, plun-
ging into the water and the engine and
the first two cars were hurled into the
ravine, and the rest of the train rum-
bled at full speed, plunging into the
water and the engine and the first two
cars were hurled into the ravine, and
the rest of the train rumbled at full
speed, plunging into the water and the
engine and the first two cars were
hurled into the ravine, and the rest of
the train rumbled at full speed, plun-
ging into the water and the engine and
the first two cars were hurled into the
ravine, and the rest of the train rum-
bled at full speed, plunging into the
water and the engine and the first two
cars were hurled into the ravine, and
the rest of the train rumbled at full
speed, plunging into the water and the
engine and the first two cars were
hurled into the ravine, and the rest of
the train rumbled at full speed, plun-
ging into the water and the engine and
the first two cars were hurled into the
ravine, and the rest of the train rum-
bled at full speed, plunging into the
water and the engine and the first two
cars were hurled into the ravine, and
the rest of the train rumbled at full
speed, plunging into the water and the
engine and the first two cars were
hurled into the ravine, and the rest of
the train rumbled at full speed, plun-
ging into the water and the engine and
the first two cars were hurled into the
ravine, and the rest of the train rum-
bled at full speed, plunging into the
water and the engine and the first two
cars were hurled into the ravine, and
the rest of the train rumbled at full
speed, plunging into the water and the
engine and the first two cars were
hurled into the ravine, and the rest of
the train rumbled at full speed, plun-
ging into the water and the engine and
the first two cars were hurled into the
ravine, and the rest of the train rum-
bled at full speed, plunging into the
water and the engine and the first two
cars were hurled into the ravine, and
the rest of the train rumbled at full
speed, plunging into the water and the
engine and the first two cars were
hurled into the ravine, and the rest of
the train rumbled at full speed, plun-
ging into the water and the engine and
the first two cars were hurled into the
ravine, and the rest of the train rum-
bled at full speed, plunging into the
water and the engine and the first two
cars were hurled into the ravine, and
the rest of the train rumbled at full
speed, plunging into the water and the
engine and the first two cars were
hurled into the ravine, and the rest of
the train rumbled at full speed, plun-
ging into the water and the engine and
the first two cars were hurled into the
ravine, and the rest of the train rum-
bled at full speed, plunging into the
water and the engine and the first two
cars were hurled into the ravine, and
the rest of the train rumbled at full
speed, plunging into the water and the
engine and the first two cars were
hurled into the ravine, and the rest of
the train rumbled at full speed, plun-
ging into the water and the engine and
the first two cars were hurled into the
ravine, and the rest of the train rum-
bled at full speed, plunging into the
water and the engine and the first two
cars were hurled into the ravine, and
the rest of the train rumbled at full
speed, plunging into the water and the
engine and the first two cars were
hurled into the ravine, and the rest of
the train rumbled at full speed, plun-
ging into the water and the engine and
the first two cars were hurled into the
ravine, and the rest of the train rum-
bled at full speed, plunging into the
water and the engine and the first two
cars were hurled into the ravine, and
the rest of the train rumbled at full
speed, plunging into the water and the
engine and the first two cars were
hurled into the ravine, and the rest of
the train rumbled at full speed, plun-
ging into the water and the engine and
the first two cars were hurled into the
ravine, and the rest of the train rum-
bled at full speed, plunging into the
water and the engine and the first two
cars were hurled into the ravine, and
the rest of the train rumbled at full
speed, plunging into the water and the
engine and the first two cars were
hurled into the ravine, and the rest of
the train rumbled at full speed, plun-
ging into the water and the engine and
the first two cars were hurled into the
ravine, and the rest of the train rum-
bled at full speed, plunging into the
water and the engine and the first two
cars were hurled into the ravine, and
the rest of the train rumbled at full
speed, plunging into the water and the
engine and the first two cars were
hurled into the ravine, and the rest of
the train rumbled at full speed, plun-
ging into the water and the engine and
the first two cars were hurled into the
ravine, and the rest of the train rum-
bled at full speed, plunging into the
water and the engine and the first two
cars were hurled into the ravine, and
the rest of the train rumbled at full
speed, plunging into the water and the
engine and the first two cars were
hurled into the ravine, and the rest of
the train rumbled at full speed, plun-
ging into the water and the engine and
the first two cars were hurled into the
ravine, and the rest of the train rum-
bled at full speed, plunging into the
water and the engine and the first two
cars were hurled into the ravine, and
the rest of the train rumbled at full
speed, plunging into the water and the
engine and the first two cars were
hurled into the ravine, and the rest of
the train rumbled at full speed, plun-
ging into the water and the engine and
the first two cars were hurled into the

bled at full speed, plunging

CHILDREN AT PUBLIC OUTCRY

PITTSBURG PASTOR SAYS HE MUST SELL TWO TO SUPPORT THREE.

New York, September 21.—A Pittsburgh dispatch to the *Times* says: Rev. Thomas G. Boord, pastor of the Wylie Avenue church of Pittsburgh, was almost mobbed by his parishioners after they had read in the papers how the minister, pleading poverty, had tried to sell two of his own children at public auction on the streets of Circle, Pa., his home town. The minister had been subjected to some rather harsh treatment when he tried to get bids on the children in the public square at Circleville, which he flooded with hand bills, reading as follows:

Auction tonight.

The undersigned will sell at public auction his two children, as hereinafter described.

One boy, 7 years old, fair complexion, weighs forty-three pounds. Strong of body and mind. Has never been to school, but would make a competent newsboy and be able to earn good wages in three years. Will be great support to buyer in less than eight years.

One girl, aged 10, dark complexion, weighs fifty-three pounds. Has had four years' schooling. Was youngest pupil in her class, can execute any household duties, such as plain sewing and cooking, dish washing, etc. For a child's nurse cannot be excelled. Will be competent to keep an ordinary house in six years' time.

Sale to take place corner Third and Main streets at 7:30 tonight. Terms and conditions of sale and reasons for selling made known before sale begins. Purchaser must be good moral person.

The posting of the bills created a big sensation in the town, and there were 1,000 persons on hand when Boord appeared, accompanied by a nice looking boy and girl, and announced that the auction was ready to start. He said the chil-

ren he was offering for sale were his own. He was the father of five children, and was unable to support them. He could not supply them with proper food and clothing, and had taken this way to provide the two with homes, and incidentally to get something with which to provide for the remaining three.

The announcement struck the crowd dumb. When Mr. Boord asked for bids some of the prominent citizens interfered and told him the sale could not go on. They told him that slavery had been abolished in this country, and that it was contrary to the constitution of the United States to sell persons at public auction.

Mr. Boord tried to defend his action, but was finally compelled to call the auction off, when many in the crowd showed a disposition to handle him roughly.

These facts were set forth in the Pittsburgh papers, and there was much trouble in store for Mr. Boord when he reached the Pittsburgh church. He was jeered at and many left the church refusing to listen to his explanation, which the pastor offered in tears.

Mr. Boord is a prohibition candidate for the state legislature, and his explanation is that he wanted to illustrate a point in his campaign by the auction block and his two children.

Money! Money! Money!
Plenty Six Per Cent Money to lend on improved farm lands in Bulloch County. By paying up the accrued interest you may repay the loan at any time. Call at our office and let us go over this matter with you.

Vinol

Will Build You Up and Make You Strong

Old people, tired, weak, run down people, delicate children, frail mothers, and those recovering from severe illness, this is a fact. Thousands of genuine testimonials from reliable people prove this claim, and to further support the fact and prove our faith in what we say, we unhesitatingly declare that any one who will try a bottle of VINOL will have their money returned without question if they are not satisfied that it did them good.

W. H. ELLIS, Druggist, Statesboro, Ga.

FARMING LAND IN OKLAHOMA.

UNCLE SAM'S METHOD OF SALE IS ATTRACTING ATTENTION.

Uncle Sam, as a land auctioneer, is attracting considerable attention in Oklahoma by a unique method of selling the red man's heritage in the shape of good tilling land. That the farmer and investor appreciate the plan and have confidence in it is demonstrated by the fact that within the past twelve months approximately one million dollars have been paid for Indian land to the United States government through the United States Indian superintendent at Muskogee, Oklahoma.

For several years the question of land titles in that part of Oklahoma, formerly Indian Territory, has not been looked upon favorably by those desiring investments. Land that will raise one bale of cotton to the acre, sixty bushels of corn season after season, better than one hundred bushels of oats, two crops of potatoes in one season, averaging one hundred bushels to the acre, and adaptable to raising a corresponding crop of any of the staples has gone begging and remained idle on the title bugaboo. The same grade of land in Missouri, Illinois, Iowa, Kansas and the other agricultural states was bringing from \$65 to \$150 per acre, while the Indian lands in Oklahoma were taken by the weeds for the lack of purchasers at ten and fifteen dollars.

Within the past year, however, things have greatly changed. The government decided to sell the restricted lands for the Indian and supervise the proceeds from the sale of such lands. The Indian, as rule, inexperienced and in any business pertaining to this land, such as renting or leasing, only succeeded in getting the title clouded, hence the scare of poor titles.

The plan of the government officials is to clear the land of such clouds, appraise the land and improvements, and offer the same to the highest bidder, thereby insuring perfect title, the deed being prepared in the office of the United States Indian superintendent.

From the beginning the plan proved an excellent one, and before the third monthly sale the lists of land were sought by people in all the states. The United States Indian superintendent has today on his mailing list of monthly land sale notices some five thousand names of interested persons in other states who are desirous of purchasing the Indian land.

The average acreage offered monthly by the United States Indian superintendent is 20,000, and some months the list more than doubles that amount. The October sales now being advertised show fifty thousand acres, a majority of which is susceptible to the highest state of cultivation and will raise in abundance all the crops of the temperate zone.

These tracts are appraised by two competent land men, one a regular land appraiser and the other the district agent in the locality where the land is situated, and who is familiar with the conditions in this locality.

The land is advertised for thirty days in the newspapers of the state and by printed posters distributed by the mailing list system. The bids are opened on the day specified in the advertisement and the highest bid, if it exceeds the amount stated in the appraisal, gets the land.

At the time of sale ten per cent of the amount offered must accompany the bid and the balance to be paid on receipt of notice from the Indian superintendent to the effect that the deed has been executed and is ready for delivery.

There is no doubt as to a clear title to land purchased in this manner as the records are carefully examined by the representatives of the Indian superintendent, and if no clouds affecting title are found the land is advertised. When an Indian makes application for the removal of restrictions upon the sale of his land the same is submitted to an appraiser for an investigation as to its quality, improvements and value—consideration being taken as to the distance from market, kind of market and the roads. At the same time the district agent is given a description of the land and he checks the county records wherein the land is located to ascertain whether there are any illegal instruments of record. If such instruments appear of record the superintendent will not advertise the land until the title can be cleared.

The land advertised through the office of the United States Indian superintendent is of every quality found in any state, there being open prairie, timber, first class agricultural land, and large tracts of rough land suitable only for grazing purposes. The better grades during the past year have sold at prices ranging from \$10 to \$20 per acre, while grazing land has brought from \$1 to \$5 per acre.

In the southern part of the state and along streams the land is covered to some extent with merchantable timber, and in the eastern part of the state the land is underlaid with vast beds of mineral—lead, zinc, iron and coal. The central portion of the state from north to south has the famous oil pools—probably the largest in the world—and the land offered for sale is from every portion of that part of Oklahoma, formerly known as the Indian Territory, so rich in these resources.

Professor Charles N. Gould, state geologist, has made a careful investigation of this part of the country, in his report recently submitted to the state officials stated that in his estimation there are many undeveloped pools of oil—in fact, that this product may extend to many parts of the eastern half part of the state.

The United States Indian superintendent is now sending out the lists showing lands advertised for sale during the month of October, which lists describe every tract offered, give its location, and price at which sale will be made. It is expected that the October sales will bring the Indians a total of approximately \$225,000.

In Cooking, the difference in WEIGHT of foods Cooked

Depends Upon the SHORTENING Used

If you use the famous Wesson Snowdrift Oil you have only the weight of the article cooked, but NO ADDED GREASE WEIGHT. It cooks through and through, BUT NEVER PERMEATES!

Wesson Snowdrift Oil positively produces the lightest, damiest delicacies which the culinary art can lead. It is scientifically refined by an exclusive process, to a degree of perfect healthfulness. It is 100% cooking value, and 20% more economical than the best lard, and 33 1-3% more economical than butter or olive oil.

Be constantly on guard against substitutions and imitations which have been inspired by its success. Call for the genuine Wesson Snowdrift Oil, made by

Ask your dealer for the famous Wesson Snowdrift Oil COOK BOOK. It is free to all who request it. It is a valuable guide to the art of cooking, and will show you the difference between the Wesson Snowdrift Oil and other cooking oils.

THE WRECK MASTER. VERY LOW EXCURSION FARES

He Does Some Tall Hurling When the Line is Blocked.

When a wreck blocks the line the wreck master is the biggest gun on the railroad. Even the president, if by unhappy chance he happens to be there, steps aside and keeps silent after the wreck train halts with a jerk of grinding brakes and hissing air before the indescribable confusion of shattered wood and twisted steel which clutter the tracks. The wreck master's foot are on the ground before the shrieking wheels have ceased turning. There follow at his heels a half score of men, all experts, but of less degree than their leader.

He shouts an order that seems as unintelligible as a drillmaster's command, then another and another. There is instant action. At one end of the train a locomotive begins to creep cautiously away with the coaches that have stayed on the rails. An express car up toward the forward end of the passenger train is tilted tremblingly on its trucks. It is loaded with bales of silk perhaps or with other costly merchandise. The wreckers do not stop to inquire. To them it is simply an obstruction that has to be removed immediately. There is a heaving chorus, and it plunges down the embankment. A hundred yards away a loaded freight car in the opposite train is hanging over the edge. Fifty crowsbars give it a tip that sends it down to the foot of the hill. As it lands there is a crash of discordant, tortured strings, an inharmonious outburst as though half a hundred cats had landed simultaneously on half a hundred keyboards. "Planes," remarks one of the panting workmen to another standing at his shoulder. They do not pause even to grin. An instant later they are heaving away at something else—Thaddeus S. Dayton in Harper's Weekly.

Cabbage Plants for Sale.
My home grown cabbage plants are now ready for transplanting. Good, hardy plants, in large or small quantities.
E. W. NANCE.

So immediately upon his turning over the reins of office to his successor, who was also his predecessor, Governor Brown will seek the fertile valleys and the wooded hills of Cherokee.

His farm property now embraces 1,027 acres. Of this number 175 acres are in rich bottom land, and

another 700 acres are divided into three pastures, well watered by the branches from twelve springs that rise in almost every hollow. The larger part of the pasture land is wooded, and the governor will apply scientific forestry methods in putting it in shape.

"I am going to plow my bottom land next month," he said, in telling of his farming operations, "and have just bought a twenty-horse power engine. We will break up the ground to a depth of 14 inches, and after the fall and winter rains have soaked in, we will never know next summer whether there was a drought or not. The portable engine will drag three plows and break a strip of ground 42 inches wide. We can plow the whole 175 acres with this engine in ten days, where it formerly took six weeks. When the engine is not employed in this way, I can use it in saving timber."

The office was equipped with gas fittings and the force of the explosion tearing these pipes into bits released gas which was instantaneously ignited in every part of the building.

No other cause but that of dynamite explosion was advanced by witnesses, excepting in the case of a telegraph operator, William Fierman, who stated that he detected the odor of gas throughout the building earlier in the night and had called attention to it.

Western Reeves, secretary of Manager Chandler, has not been found since the fire. Mr. Chandler believes his secretary lost his life in the building. Chandler's office was wrecked by the explosion.

Speaking of the explosion, Mr. Chandler said: "You can say for me that there is no doubt that this terrible outrage can be laid at the doors of the labor unions. They have destroyed the building and plant and have killed a number of our men, we do not know how many, but they can't kill the Times."

"There is no doubt but that the explosion was caused by a charge of dynamite placed apparently in

Los Angeles, October 1.—The building and plant of the Los Angeles *Times*, one of the best known newspapers of the southwest and of which General Gray Otis is editor and principal owner, was completely destroyed by an explosion and fire soon after 1 a. m. today, resulting in the death of upwards of 20 of its employees and a financial loss of nearly half a million dollars.

The management of the paper lays the blame of the explosion to the labor unions, with which organizations the paper has long been engaged in bitter warfare. It is charged that unknown persons set off a charge of dynamite in a blind alley which ran into the center of the building, completely wrecking the interior and setting it on fire from room to basement. The force of the explosion was terrific. It was heard for miles, and all the windows in the vicinity of the *Times* building were shattered. Between 50 and 75 employees were in the place at the time and until the whole list of employees of the paper can be checked over it will not be known how many lives were lost.

The responsible heads of the paper, including Assistant General Manager Harry Chandler, had narrow escapes from death, many of them having left the building only a short time before the explosion.

The force of the explosion was exerted on the mechanical department of the paper and most of the dead and injured were members of these departments.

Over 30 men were at work on the linotypes and about 50 in the "ad" section. Because of the fact so many extra men were at work it will probably be several days before all are accounted for.

The building occupied by the *Times-Mirror* publishing plant is of brick, three stories in height and back of this was a brick annex of two stories and a basement. The editorial department of the *Times* was on the third floor of the main building and the business office on the ground floor. The annex contained the presses, linotypes, big job printing plant and the *Times* school for training linotype operators.

The *Times* employed non-union printers and maintained a large battery of linotypes for teaching and training operators in the use of the machine. Managing Editor of the *Times*, said he believes not over 15 persons lost their lives.

Assistant General Manager Chandler, of the *Times*, had a narrow escape from death in the fire. He had just left his office on the first floor and gone to the street when the explosion occurred.

Managing Editor Andrews and City Editor Von Bler had been in their offices during the evening, but had gone to their homes a short time before the explosion. Assistant City Editor Ellis was still on duty when the fire leaped up all around the building. He ran to the window and jumped three stories to the paved streets. His right leg was broken and he was otherwise seriously injured. None of the reportorial staff so far as could be learned was in the local room at time of the explosion. One man whose name is unknown leaped from a second story window and alighted on his head, breaking his neck.

Particularly would this be true now that it is practically certain Mayor William J. Gaynor, of New York, will not consent to the nomination of governor of his state. When he was removed as a possibility it left Governor Harmon in many ways the strongest choice the Democrats could look to.

That, with the wave of progressive republicanism or insurgency, sweeping the country and splitting the "Grand Old Party" asunder, democratic governors being elected in several states that have been republican for many years, the more it begins to look as if the democratic party were about to return to national power.

Harmon as a presidential possibility is not a new suggestion. With Hoke Smith, of Georgia, recognized far and wide as one of the biggest men and foremost demagogues in America today, on the ticket with him, he'd be stronger than ever.

Atlanta, September 29.—Gov. Harmon, of Ohio, for president and Governor Hoke Smith, of Georgia, for vice-president.

Such is the democratic ticket for two years hence that has been suggested in Atlanta, and such is the suggestion that will be read with interest all over the country.

That it would make a combination that would be very strong every well posted man in the country will admit. That it would be mighty near the strongest possible combination, so far as the outlook now reaches, is not an exaggeration.
